About Me

Skilled Frontend Developer with a focus on CSS and its vast ecosystem, including preprocessors, frameworks. Dedicated to designing stunning, responsive web interfaces that excel in both aesthetics and performance. Possessing a deep understanding of CSS, I blend creativity with functionality to deliver exceptional user experiences. Continuously expanding my knowledge in web technologies.

Work History

06/2022
present

Front End Developer

Worx, Herzliya, Israel

- Developed and maintained e-commerce websites using Venia, Magento's Progressive Web Application (PWA) Studio, enhancing user experience through modern web technologies.
- Implemented responsive and adaptive web designs to ensure optimal performance across various devices.
- Optimized page load times and site performance, leading to improved user engagement and higher conversion rates.
- Customized and extended Venia's modular architecture to meet specific business requirements and deliver tailored e-commerce solutions.
- Employed best practices in SEO to improve site visibility and search engine rankings, driving organic traffic to the e-commerce platforms.
- Managed version control and deployment processes using Git.
